Research Triangle Park, NC 27709
Fax: (919) 541-0947

Dear Dr. William Stokes,

Per information released by the HSUS, I strongly encourage you to begin efforts to completely replace lethal dose testing with non-animal, in vitro testing methods. It is time to do the right thing in treating animals humanely by no experimental testing, ever again.

Thank you for your time.

Best regards,

Mrs. Tina Hospers and family (American citizens)
